Brief Introduction

Prof. Huang is an expert entitled to Government Special Allowance (GSA) and one of the science and technology innovation talents in Fujian Province. Till now, he has performed laparoscopic gastrectomy for gastric cancer in more than 5000 cases, and the laparoscopic spleen-preserving splenic hilar lymphadenectomy is carried out routinely in patients with locally advanced upper third gastric cancer. In addition, he has published more than 200 articles in the source of SCI journals, Chinese medicine magazines and other professional journals. As an editor-in-chief, he published *Laparoscopic Gastrectomy for Gastric Cancer: Surgical Technique and Lymphadenectomy* in English and 3 books in Chinese. Moreover, he has been awarded Fujian Provincial Science and Technology Achievement Award many times and is undertaking currently a number of national and provincial scientific research projects.
